

# Stop the Massacre in Gaza Boycott Israel Now!

*"The recent developments in Gaza are a deliberate intention on the part of Israel and its allies to subject an entire human community to life-endangering conditions of utmost cruelty... This pattern of conduct is a holocaust-in-the-making ... [It is] an appeal to the governments of the world and to international public opinion to act urgently to prevent these current genocidal tendencies from culminating in a collective tragedy." Prof. Richard Falk, Princeton University, UN Special Rapporteur for Human Rights in the Occupied Palestinian Territory*

On Saturday December 27, 2008 the Israeli occupation army committed a new massacre in Gaza, causing the death and injury of hundreds of Palestinian civilians. This latest bloodbath culminates months of an Israeli siege of Gaza that should be widely condemned and prosecuted as an act of genocide against the 1.5 million Palestinians in the occupied coastal strip.

Since its establishment in 1948, Israel has massacred thousands and exiled hundreds of thousands of the indigenous Palestinians from their homes and land. The Palestinians in Gaza, most of whom are refugees who have been incarcerated behind ghetto walls and brought to the brink of starvation by the siege, have become easy targets for Israel's indiscriminate bombing.

Condemnation of Israel is no longer enough. Father Miguel D'Escoto Brockman, President of the UN General Assembly recently prescribed "a non-violent campaign of boycott, divestment and sanctions to pressure Israel to end its violations" similar to that carried out against the Apartheid regime in South Africa.

Israel's war crimes and other grave violations of international law in Gaza, as well as in the rest of the occupied Palestinian territory, including Jerusalem, could not have been perpetrated without the complicity of world governments, particularly the United States. The US government has consistently sponsored, bankrolled and protected from international censure Israel's apartheid and colonial policies against the indigenous people of Palestine using US taxpayers' money!
